Date: July 9, 2021

To Our Valued Licensees,

## NOTIFICATION ON THE IMPLEMENTATION OF ELECTRONIC CERTIFICATE (e-CERTIFICATE) FOR PRODUCT CERTIFICATION SCHEME THROUGH SIRIM CERTIFICATION AND INSPECTION SYSTEM (eSCIS)

In enhancing SIRIM QAS International's sustainability and green business practices, we are pleased to announce that we are moving further in our digitalization roadmap by introducing electronic certificate or **e-Certificate**.

The implementation of e-Certificate on eSCIS will be effective starting on **1 August 2021**.

Licensees will receive their **e-Certificate via email** from respective SIRIM personnel. Alternatively, Licensees may also **download their e-Certificate from eSCIS** once they are registered with eSCIS Customer Portal.

It replaces the current method where hardcopy certificate is issued and Licensee is required to collect the certificate from our counter or the certificate is delivered to Licensee through courier service.

Through e-Certificate implementation, we aim to ease our customers' experience further as the e-Certificate through eSCIS has the following advantages:

- Secure and authentic as the e-Certificate is embedded with QR code for identification and traceability.
- Efficient, time saving and cost saving as Licensees are no longer required to collect the certificate at SIRIM or utilise courier service.
- Accessible electronic record management for e-Certificate.

We believe that with the e-Certificate, it will not only provide a great convenience and flexibility to your business operations but also support a greener environment and reduce carbon footprint.

Should you have any questions or require further explanation, please email your enquiries to [cserviceqas@sirim.my](mailto:cserviceqas@sirim.my).

Thank you for your continued support and understanding.

Yours faithfully,

**(FAUZIAH BINTI FADZIL)**
